

## Position overview

GND is an international sustainable finance advisory and technology service company. We are looking for a sustainable finance analyst who will help us make informed business decisions working. This is an excellent opportunity for motivated persons aspiring to grow and gain practical experience in the areas of sustainable finance and investment management.

## Principal duties and responsibilities

Working alongside Senior Managers and Chief Executives, a new member of the team will be involved in tasks related to:

- Gathering, organising, and analysing financial and ESG data from multiple sources.
- Conducting due diligence and risk assessments for potential investments.
- Preparation of valuation models and financial forecasts for potential investments.
- Assistance in the preparation of documents to turn data into actionable business insights.
- Participation in regular meetings with company managers and business partners.

## What do we expect from you

We expect you have a strongly pro-active, conducive, 'can-do' demeanour, you are able to follow data across multiple systems and sources. You can be a perfect match for our team if you have:

- Higher education degree in Accounting, Finance, or Economics.
- Experience and interest in sustainable finance and private equity.
- Very good English skills (speaking, listening, reading, and writing).
- Analytical thinking and good problem-solving skills.
- Curiosity and willingness to learn.

## What do we offer

We will support you in the process of your personal growth and development. Specifically, you will have:

- High-performing, driven, and supportive working culture.
- Hands-on practical experience in a growing international company.
- Outstanding personal development and career progression opportunities.
- Competitive salary and bonus based on annual performance.
- Flexible work schedule and full adaptability to your needs.
- Health insurance package.
